

Acta Neurochirurgica

Web

<http://www.springer.com/medicine/surgery/journal/701>

Diario Oficial de la Asociación Europea de Sociedades de Neurocirugía [EANS http://www.eans.org](http://www.eans.org)

Fue fundada en 1950, en un momento difícil después de la Segunda Guerra Mundial, por Mario Milletti (Bologna) y Wolfram Sorgo (Innsbruck), y publicado por [Springer](#).

Desde el comienzo fue concebida como una revista internacional, con una impresionante lista de neurocirujanos destacados en el consejo de redacción. Sólo unos pocos años más tarde, los problemas aparecieron a intervalos irregulares debido a problemas individuales de los editores. Wilhelm Tönnis tomó la iniciativa de mantener viva la revista, con la ayuda de Fritz Loew que permaneció editor en jefe durante casi 38 años. Inicialmente, todos los trabajos se han publicado en los idiomas nativos de los autores: Inglés, francés, alemán, italiano y español.

Actualmente acepta manuscritos en Inglés solamente.

En 1971, en la reunión fundacional de la Asociación Europea de Sociedades de Neurocirugía (EANS) en Praga, Acta Neurochirurgica se convirtió en el órgano oficial de la EANS . Desde el principio Acta Neurochirurgica, Suplemento se añadieron volúmenes. Además, los avances de la serie de libros y la Norma Técnica de Neurocirugía es un descendiente de Acta Neurochirurgica. Acta Neurochirurgica se ha convertido en una de las revistas más importantes del mundo neuroquirúrgico. Este bosquejo histórico se basa en una entrevista con Fritz Loew, a sus 91 años (Reulen y Collmann, 2012).
